

# Legend of the fairy Libanka

The largest expensive opal Harlekyň in the area of Slovakia Opal Mines, was found in 1775 in the bed of the Orľanka stream, which springs below Šimonka. One of the legends says that the gem was given to shepherd Simon by a dancing fairy named Libanka.

At night on Bludny vrch.

Morning in the village.

I must protect the fairy!

And I'm going to the fairy!

The hole?!?

Fairies are eternal. Yours fell here and turned into opals because she wore a beautiful rainbow dress. And so she will stay here forever.
